I have a Toyota 1gz-fe English language engine repair manual. Nowhere in it that I can find does it explicitly show cylinder numbering. I am pretty sure that #1 cylinder is driver's (left) side front, and that bank continues 3, 5, 7, 9, 11, and that the right side is numbered evenly front to back, I have the firing order as 1-4-9-8-5-2-11-
