Prenant la route de l'inattendu, Benoit Charette et ses collaborateurs présentent dans ce livre unique le meilleur et le pire de l'industrie automobile. Des Muscle Cars qui ont fait les beaux jours des années 60 aux épouvantables citrons qui ont roulé en Amérique, des bolides qui garnissent les garages des stars aux prototypes les plus spectaculaires, des électriques qui font jaser aux modèles les plus prisés des collectionneurs, des créateurs aux pilotes, des faux pas aux idées de génie, l'univers automobile se dévoile ici sous un jour totalement inédit. - Les voitures les plus bizarres, les plus chères, les plus belles, les plus vendues, les plus rapides, les plus laides, les accessoires les plus inusités... Des classements réjouissants qui dévoilent jusqu'où peut aller l'inventivité des fabricants quand il s'agit d'en mettre plein la vue aux consommateurs. - La naissance des grandes marques, les points tournants de l'industrie, les concepteurs qui ont fait la différence... 100 faits marquants qui ont changé l'histoire de l'auto dans autant de capsules instructives. - Les poursuites légendaires au cinéma, les véhicules tape-à-l'œil des sportifs, les collections précieuses des icônes de la scène... Quand les vedettes prennent le volant, avouez que jeter un œil, c'est trop tentant! Avec ses 58 palmarès étoffés illustrés de plus de 800 photos, cet ouvrage tous azimuts à la fois divertissant et instructif risque de causer un bouchon de circulation autour de votre table à café.

Transnational Companies (19th-20th centuries) gathers tests which were presented during the fourth convention of the European Business History Association in Bordeaux in September 2000. Most of them come from matured and well-known business historians or business schools specialists, but a bunch of texts were provided too by junior researchers, who found thus a way to promote their brand new inquiries ! Most branches are studied here, either heavy industries or agrobusiness and textile ; but specific areas are well approached : luxury firms, wine and beverages companies, for instance. The focus of Transnational Companies is to scrutinize the emergence of international policies among enterprises, whether through exports strategies or through direct investments in foreign countries, along branches, ways of development, entrepreneurial undertakings or competition's incentives. The book assesses too the move from internationalisation to transnationalisation in the interwar and mostly since the 1960s : owing to several case studies here presented, business schools and economic historians will be able to foster tuitions and seminars with fresh material. Lest several papers are earmarked to the argument about globalisation, that is the restructuring of firms'organisation towards internationalised internal divisions since the 1970s-1980s, as the book does cover the very last years of the 20th century.

Completely unlike any encyclopedia before it, The Book of Firsts is the product of decades of archiving and research from the incredible Patrick Robertson. For many years the proprietor of a stock photo archive and collector of all forms of ephemera, Robertson boasts a library that includes ads, clippings, and archival materials going back well over 100 years. In this amazing work, Robertson indexes and describes the things he considers socially relevant, such as the first black head of a white government (it's not who you think), the first baby carriage, and the first department store. He writes about all this with an unparalleled knowledge and impossible-to-fake fluency with a staggering number of subjects. What's more, Robertson renders this massive reference with subtle but distinctive humor, and an eye for fascinating detail. Every entry in this book includes a first time in America, and many also have firsts from elsewhere in the world. With a handsome design and an oversized trim, this will be both a groundbreaking work of reference and a beautiful gift for trivia heads.
