A hotel management information system streamlines processes and activities. It also makes data more readily available. It allows the data to be analyzed in different ways and is important in decision making for day-to-day operations and future planning. A business information system in hotels ensures that

activities run smoothly through shift changes day and night for optimal customer service.

~~Hotel Management Information System~~ Bizfluent

Traditionally, a hotel PMS was defined as software that enabled a hotel or group of hotels to manage front-office

Acces PDF A Sample Hotel

capabilities, such as booking reservations, guest check-in/checkout, room assignment, managing room rates, and billing. A hotel PMS replaced time consuming, paper-intensive processes.
