~~Accident and Emergency Radiology: A Survival Guide~~
The authors have been clear in their objective of providing a reliable framework to avoid overlooking subtle abnormalities. Therefore, by its very nature, Accident and Emergency Radiology/A Survival Guide is not, and does not purport to be, a definitive text. Rather, it provides junior, relatively inexperienced doctors a greater knowledge and understanding of radiological interpretation encountered in the emergency setting, when expert opinion may not be readily available.

~~Accident and emergency radiology: a survival guide~~ 2nd
The accident and emergency radiology survival course started 10 years ago as a series of tutorials for local emergency department doctors (www.radiology-courses.com). It is organised by a group of radiology consultants and has rapidly become one of the most well known radiology teaching courses in the United Kingdom.

~~The accident and emergency radiology survival course~~ | The BMJ
NB. The emphasis is on skeletal trauma. Analysis of Emergency Department chest radiographs (CXRs) requires much more than a token lecture or two. Consequently, we have created the The Chest X-Ray Survival Course - for Doctors and other healthcare professionals. Those seeking chest film teaching and tutorials can register for this companion ...

Official information from NHS about Queen Elizabeth Hospital Birmingham including contact details, directions, opening hours and service/treatment details

~~Departments and services - Queen Elizabeth Hospital~~
Accident and Emergency pathway This is a nurse led service providing a quick follow up for patients who have presented to A&E at Royal London Hospital or Whipps Cross Hospital with chest pain, likely to be caused by coronary heart disease/ angina, who have had no ischaemic ECG changes or cardiac enzyme rises. This allows patients to be safely discharged from A&E with timely follow up.
