### 3 Ways to Stop Panicking - wikiHow

Panic attack triggers. Anything can trigger a panic attack. It depends on your character. Some people suffer from panic attacks more than others. It depends on a) what their trigger/s is/are, and b) how often they 're exposed to it/them. If your character has anxiety, the tiniest thing could set them off.

## How to Write a Realistic Panic Attack - The Writer's Cookbook

A panic attack is a sudden episode of intense fear that triggers severe physical reactions when there is no real danger or apparent cause. Panic attacks can be very frightening. When panic attacks occur, you might think you're losing control, having a heart attack or even dying. Many people have just one or two panic attacks in their lifetimes, and the problem goes away, perhaps when a stressful situation ends.

How to Help Someone Who's Having a Panic Attack  
Panic attacks, a form of anxiety, have similarities to regular moments of panic, but they are more severe and far less common. While panicking feels uncomfortable, a panic attack can feel life-threatening (thankfully, it ' s not). These symptoms may indicate a panic attack, according to the Anxiety and Depression Association of America:

Get help with anxiety, fear or panic - NHS

Unfortunately, for people with an anxiety disorder, this is a prime trigger for a panic attack. The gasping for breath during an asthma attack can remind you of previous panic attacks. If you have trained yourself to meditate and breathe well during a panic attack, you end up doing short inhales and long exhales.
