This book is a concise, easy-to-use multi-choice question and answer resource in oculoplasty for ophthalmologists undertaking exams in this sub-specialty. Each chapter contains a short didactic summary of the topic followed by MCQs and answers. References to the full-text book Oculoplastic Surgery: A Practical Guide to Common Disorders are also included in the answer section of each chapter. This unique format allows readers to dip into MCQs to practice for exams while also providing clear references of where to find chapters from a larger text. This book includes MCQs that examine the interaction between oculoplasty, ophthalmic sub-specialties (pediatrics, cataract, refractive, neuro, glaucoma) and other clinical areas including ENT, maxillofacial, dermatology, general plastic surgery and psychiatry. Consultants, surgeons and trainees from all ophthalmic specialties and sub-specialties will find this book to be an indispensable resource for exam revision in oculoplasty.

This book features one hundred and fifty updated self-assessment questions designed to help the reader prepare for ABPN examinations and achieve CME and MoC credits towards reaccreditation.

Medical Law and Ethics covers the core legal principles, key cases, and statutes that govern medical law alongside the key ethical debates and dilemmas that exist in the field. Carefully constructed features highlight these debates, drawing out the European angles, religious beliefs, and feminist perspectives which influence legal regulations. Other features such as 'a shock to the system', 'public opinion' and 'reality check' introduce further socio-legal discussion and contribute to the lively and engaging manner in which the subject is approached. Online resources This book is accompanied by the following online resources: - Complete bibliography and list of further reading - Links to the key cases mentioned in the book - A video from the author which introduces the book and sets the scene for your studies - Links to key sites with information on medical law and ethics - Answer guidance to one question per chapter

Focusing on the topics commonly found on ABFM in-training, board certification, and recertification examinations, The Family Medicine Board Review Book helps you make the most of your study time and achieve exam success. It provides valuable background information on all three AFBM exams and their formats, presents more than 1,800 multiple choice questions for self-assessment, and helps you identify areas that may require further study. Ideal for residents, practicing physicians, and nurse practitioners, this new review tool is an excellent resource for testing your knowledge of the entire field of family medicine.

Completely revised and updated to reflect the latest guidelines and innovation, Emergency Nursing Made Incredibly Easy!, Second Edition, offers essential information on emergency, trauma, and critical care. Presented in the easy-to-learn and enjoyable Incredibly Easy! format, it covers emergency care basics, including patient assessment and triage, trauma, disease crises, and patient and family communication. It also addresses legal issues such as handling evidence and documentation, and holistic issues such as pain and end-of-life care. Chapters detail emergency nursing by body system and cover shock, multi-system traumas, environmental emergencies, disaster preparedness, communicable diseases, and obstetric and pediatric emergencies. The presentation features light-hearted cartoons and humor, "Memory Joggers" and other icons, and end-of-chapter review questions.
