Explore the cell division notes to learn about the types and phases of cell division. Types of Cell Division. There are two distinct types of cell division out of which the first one is vegetative division, wherein each daughter cell duplicates the parent cell called mitosis. The second one is meiosis, which divides into four haploid daughter cells. Mitosis: The process cells use to make exact replicas of themselves. Mitosis is observed in almost all the body ' s cells, including eyes, skin ...
