Counting Leaf Stomata Lab

Answers

Detailed Description of the Experiment

Place the leaf on the microscope slide and examine. The density of stomata on a leaf is recorded per unit area, usually the number per sq mm. A microscope is calibrated so that its field of view ...

Counting Leaf Stomata Lab

Investigate distribution of stomata and guard cells

In this lab, stomata density variation likely results from interacting environmental factors (e.g. CO₂, temperature, water, etc.); therefore, higher stomata density might be consistent with a student ...
