 An engineering drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing.Usually, a number of drawings are necessary to completely specify even a simple component.

Engineering drawing - Wikipedia
 Detail drawings seldom describe the intent of an engineering design. An engineering design is usually defined by many individual detail drawings which combine to form an assembly drawing. The name and or drawing number of the assembly drawing in which the detail drawing is "called up" or "used on" is stated in the title block.
