Extracted is a difficult book to like. If you do like it (and I did end up doing so), it's difficult to say why. It's not particularly well-written. While the dialogue cracked me up, the writing was generally just a bit off. The book starts, stops, and sputters along, frequently finding a rhythm and then falling away from it.

Cue three unlikely heroes, who are extracted from their timelines at the point of death to change the future. One of the more unexpected joys with this exhilarating read—the first book in the Extracted series—was the laugh-out-loud humour. I advise you not to read this book in public unless you're prepared for conversation with strangers.

I really rather enjoyed the first book 'Extracted', second book 'Executed' and I would say the 95% of 'Extinction'. It's very well written, the characters feel like individual people that I grew to love and I think the logic with the various time travel machinations are largely consistent throughout.
