Convert your own home movies for showing on the big screen. Watch YouTube videos. View photos from iPhoto, Flickr, and .Mac Web Galleries. Fix common problems and learn what to do if you can't fix them yourself.

From acclaimed, New York Times best-selling author Mary Roach comes the complete collection of her "My Planet" articles published in Reader's Digest. She was a hit columnist in the magazine, and this book features the articles she wrote in that time. Insightful and hilarious, Mary explores the ins and outs of the modern world: marriage, friends, family, food, technology, customer service, dental floss, and ants--she leaves no element of the American experience unchecked for its inherent paradoxes, pleasures, and foibles. On Cleanliness: Ed has crud vision, and I don't. I don't notice filth. Ed sees it everywhere. I am reasonably convinced that Ed can actually see bacteria. . . . He confessed he didn't like me using his bathrobe because I'd wear it while sitting on the toilet. "It's not like it goes in the water," I protested, though if you counted the sash as part of the robe, this wasn't strictly true. On the Internet: The Internet is a boon for hypochondriacs like me. Right now, for instance, I'm

feeling a shooting pain on the side of my neck. A Web search produces five matches, the first three for a condition called Arnold-Chiari Malformation. While my husband, Ed, reads over my shoulder, I recite symptoms from the list. "‘General clumsiness’ and ‘general imbalance,’" I say, as though announcing arrivals at the Marine Corps Ball. "‘Difficulty driving,’ ‘lack of taste,’ ‘difficulty feeling feet on ground.’" "Those aren't symptoms," says Ed. "Those are your character flaws." On Fashion: My husband recently made me try on a bikini. A bikini is not so much a garment as a cloth-based reminder that your parts have been migrating all these years. My waist, I realized that day in the dressing room, has completely disappeared beneath my rib cage, which now rests directly on my hips. I'm exhibiting continental drift in reverse. On Eating Healthy: So Ed and I were eating a lot of vegetables. Vegetables on pasta, vegetables on rice. This was extremely healthy, until you got to the part where Ed and I are found in the kitchen at 10 p.m., feeding on Froot Loops and tubes of cookie dough.

Welcome to Mark Leyner's America, where you can order gallium arsenide sushi at a roadside diner, get loaded on a cocktail of growth hormones and anabolic steroids, and support your habit by appearing on TV game shows. Welcome to a wildly post-Einsteinian fictional universe where the locals include a speech pathologist with a waterbug fetish, a kamikaze airline pilot, and the lead singer for Brazil's most notoriously nihilistic samba band.

“The Time Fetch is a remarkable testament to the power of true friendship and a thrilling fantasy adventure about the unseen world all around us.” --R. J. Palacio, #1 New York Times bestselling author of Wonder Edward picks up what he thinks is a rock. He doesn't know it is a sleeping Time Fetch--and touching it will release its foragers too soon and alter the entire fabric of time and space. Soon the bell rings to end class just as it has begun. Buses race down streets, too far behind schedule to stop for passengers. Buildings and sidewalks begin to disappear as the whole fabric of the universe starts to unravel. To try to stop the foragers, Edward must depend on the help of his classmates Feenix, Danton, and Brigit--whether he likes it or not. They all have touched the Fetch, and it has drawn them together in a strange and thrilling adventure. The boundaries between worlds and dimensions are blurred, and places and creatures on the other side are much like the ones they've always known--but slightly twisted, a little darker, and much more dangerous.
