Currently doing double duty when it comes to financial reporting, accounting and information technology professionals have the unique opportunity to improve efficiency by downsizing into one department. *Event-Driven Systems* explains why this is an important cost-saving measure and shows how to put this revolutionary idea into practice. The authors challenge traditional thinking about accounting and information technology processes and the roles of the professionals who work in these specialized environments.

*Financial Accounting: An Introduction* presents an expansive and up-to-date treatment of an ever-important discipline. Without oversimplifying the subject, Augustine Benedict and Barry Elliott have created a progressive guide to financial accounting which tackles not only the fundamentals, but also includes coverage of new and emerging topics - chief among them IFRS. Comprehensive and rigorous, *Financial Accounting* encompasses a number of perspectives, ensuring that every aspect of each topic is examined in depth. Starting from the first concepts, the authors proceed to show how issues in financial accounting affect individuals, banking practices, sole traders, partnerships, and limited companies.

A comprehensive collection of effective litigation reports on a variety of subjects Accounting, financial, appraisal, and economic experts called upon to provide expert testimony in legal proceedings need reliable models for the critical documents they will submit to the court. *Litigation Support Report Writing* collects eighteen exemplary reports from a variety of financial topics, providing professionals a comprehensive resource on this vital function.
