Nineteenth century Spain deserves wider readership. Bedevilled by lost empires, wars, political instability and frustrated modernisation, the country appeared

Download File PDF Francisco Javier Herrero Zaragoza Basic Hardware

backward in relation to northern Europe and even in relation to much of its own geographical periphery. This new history, the first survey of its kind in English in more than a hundred years, offers a fresh perspective on this century, showing how and why elements of backwardness and modernity ran in parallel through Spain. Bounded by the military and imperial crises of 1808 and 1898, this study pays special attention to the experience of war on politics and society, and integrates the latest historical debates in its analysis.

The two-volume set LNCS 5761 and LNCS 5762 constitute the refereed proceedings of the 12th International Conference on Medical Image Computing and Computer-Assisted Intervention, MICCAI 2009, held in London, UK, in September 2009. Based on rigorous peer reviews, the program committee carefully selected 259 revised papers from 804 submissions for presentation in two volumes. The second volume includes 134 papers divided in topical sections on shape modelling and analysis; motion analysis, physical based modelling and image reconstruction; neuro, cell and multiscale image analysis; image analysis and computer aided diagnosis; and image segmentation and analysis.

For much of the Middle Ages, the Lara family was among the most powerful aristocratic lineages in Spain. Proteges of the monarchy at the time of El Cid, their influence reached extraordinary heights during the struggle against the Moors. Hand-in-glove with successive kings, they gathered an impressive array of military and political positions across the Iberian Peninsula. But cooperation gave way to confrontation, as the family was pitted against the crown in a series of civil wars. This book, the first modern study of the Laras, explores the causes of change in the dynamics of power, and narrates the dramatic story of the events that overtook the family. The Laras' militant quest for territorial strength and the conflict with the monarchy led toward a fatal end, but anticipated a form of aristocratic power that long outlived the family. The noble elite would come to dominate Spanish society in the coming centuries, and the Lara family provides important lessons for students of the history of nobility, monarchy, and power in the medieval and early modern world.

Compiled by more than 90 experts, this two-volume dictionary includes representatives from all major peninsular literatures: Catalan, Galician, Portuguese and Spanish. The rich history of the literary achievements in the Iberian Peninsula--from historical to dramatic--can now be enjoyed by both European and American researchers. Spanning centuries, all literary titles have been followed in the text with a published translation or a literal rendering of the original. Virtually all entries have been composed by noted scholars and are complemented

wherever possible by bibliographies of primary texts and selected critical studies as well as existing English translations of primary texts.

A renewed case for the inclusion of Spain within broader European Renaissance movements. This interdisciplinary volume offers a snapshot of the best new work being done in this area.

Revista de Estudios Ingleses es un anuario dirigido y gestionado por miembros del Departamento de Filología Inglesa y Alemana de la Universidad de Almería con el propósito de ofrecer un foro de intercambio de producción científica en campos del conocimiento tan diversos como la lengua inglesa, literatura en lengua inglesa, didáctica del inglés, traducción, inglés para fines específicos y otros igualmente vinculados a los estudios ingleses.
