Architectural Theory And

Functionalism

revisited
architectural
theory and
practice . . .

In architecture,
functionalism is
the principle
that buildings
should be

Online Library Functionalism

designed based
solely on the
purpose and
function of the
building. This
principle is a
matter of
confusion and
controversy
within the
profession,
particularly in
regard to modern
architecture, as

Online Library Functionalism

it is less self-evident than it first appears.. The theoretical articulation of functionalism in buildings can be traced back ...

Functionalism.

The notion of
functional art,

most actively

Online Library Functionalism

promoted by
German writers
and termed by
them Zweckkunst,
is most
appropriately
related to
architectural
theory under
three headings,
namely (1) the
idea that no
building is
beautiful unless

Online Library Functionalism

it properly
fulfills its
function, (2)
the idea that if
a building
fulfills its
function it is
ipso facto
beautiful, and
(3) the idea
that, since form
relates to
function, all
artifacts,

Online Library Functionalism

including
buildings, are a
species of
industrial, or
