This anthology examines the unexplored consequences of globalization on the lives of women worldwide. In a world shaped by mass migration and economic exchange on an ever-increasing scale, women are moving around the globe as never before. Every year, millions leave Mexico, Sri Lanka, the Philippines and Eastern Europe to work in the homes, nurseries and brothels of the First World - from Vietnamese mail-order brides to Mexican nannies in LA, from Thai girls in Vietnamese brothels to Czech au pairs in the UK. In the new global calculus, the female energy that flows to wealthy countries to ease a care deficit, is subtracted from poor ones, often to the detriment of the families left behind. Is the main resource now extracted from the Third World no longer gold or silver, but love?

In a remarkable pairing, two renowned social critics offer a groundbreaking anthology that examines the unexplored consequences of globalization on the lives of women worldwide Women are moving around the globe as never before. But for every female executive racking up frequent flier miles, there are multitudes of women whose journeys go unnoticed. Each year, millions leave Mexico, Sri Lanka, the Philippines, and other third world countries to work in the homes, nurseries, and brothels of the first world. This broad-scale transfer of labor associated with women's traditional roles results in an odd displacement. In the new global calculus, the female energy that flows to wealthy countries is subtracted from poor ones, often to the detriment of the families left behind. With a subtle yet penetrating understanding of the intricate interplay of gender, race, and class, Sheba George examines an unusual immigration pattern to analyze what happens when women who migrate before men become the breadwinners in the family. Focusing on a group of female nurses who moved from India to the United States before their husbands, she shows that this story of economic mobility and professional achievement conceals underlying conditions of upheaval not only in the families and immigrant community but also in the sending community in India. This richly textured and impeccably researched study deftly illustrates the complex reconfigurations of gender and class relations concealed behind a quintessential American success story. When Women Come First explains how men who lost social status in the immigration process attempted to reclaim ground by creating new roles for themselves in their church. Ironically, they were stigmatized by other upper class immigrants as men who needed to "play in the church" because the "nurses were the bosses" in their homes. At the same time, the nurses were stigmatized as lower class, sexually loose women with too much independence. George's absorbing story of how these women and men negotiate this complicated network provides a groundbreaking perspective on the shifting interactions of two nations and two cultures.

Migrant women are the primary source of paid domestic labor around the world. Since the 1980s, the newly prosperous countries of East Asia have recruited foreign household workers at a rapidly increasing rate. Many come from the Philippines and Indonesia. Pei-Chia Lan interviewed and spent time with dozens of Filipina and Indonesian domestics working in and around Taipei as well as many of their Taiwanese employers. On the basis of the vivid ethnographic detail she collected, Lan provides a nuanced look at how boundaries between worker and employer are maintained and negotiated in private households. She also sheds light on the fate of the workers, "global Cinderellas" who seek an escape from poverty at home only to find themselves treated as disposable labor abroad. Lan demonstrates how economic disparities, immigration policies, race, ethnicity, and gender intersect in the relationship between the migrant workers and their Taiwanese employers. The employers are eager to flex their recently acquired financial muscle; many are first-generation career women as well as first-generation employers. The domestics are recruited from abroad as contract and "guest" workers; restrictive immigration policies prohibit them from seeking permanent residence or transferring from one employer to another. They care for Taiwanese families' children, often having left their own behind. Throughout Global Cinderellas, Lan pays particular attention to how the women she studied identify themselves in relation to "others"—whether they be of different classes, nationalities, ethnicities, or education levels. In so doing, she offers a framework for thinking about how migrant workers and their employers understand themselves in the midst of dynamic transnational labor flows.

"I got my first job working in a toy store when I was 41 years old." So begins sociologist Christine Williams's description of her stint as a low-wage worker at two national toy store chains: one upscale shop and one big box outlet. In this provocative, perceptive, and lively book, studded with rich observations from the shop floor, Williams chronicles her experiences as a cashier, salesperson, and stocker and provides broad-ranging, often startling, insights into the social impact of shopping for toys. Taking a new look at what selling and buying for kids are all about, she illuminates the politics of how we shop, exposes the realities of low-wage retail work, and discovers how class, race, and gender manifest and reproduce themselves in our shopping-mall culture. Despite their differences, Williams finds that both toy stores perpetuate social inequality in a variety of ways. She observes that workers are often assigned to different tasks and functions on the basis of gender and race; that racial dynamics between black staff and white customers can play out in complex and intense ways; that unions can't protect workers from harassment from supervisors or demeaning customers even in the upscale toy store. And she discovers how lessons that adults teach to children about shopping can legitimize economic and social hierarchies. In the end, however, Inside Toyland is not an anticconsumer diatribe. Williams discusses specific changes in labor law and in the organization of the retail industry that can better promote social justice.
