This is the sixth book of the First Responders series written by Radclyffe. This time the plot focuses on situations within the medical examination department, where the causes of death are determined, instead of going into the frenetic pace of hospital urgencies, which is the usual environment in the medical novels of this author. As usual, too, secondary couples play an important role in the story, sometimes diverting us from the main plot. The medical language is very detailed and profuse, as we

Usually, emergency responders will perform hands-only CPR on an SCA victim, which requires these responders to push hard and fast in the center of the victim's chest. The American Heart Association (AHA) notes chest compressions should be performed at a rate of 100 to 120 beats per minute - the same beat of the classic disco song "Stayin ...
