Using the high-profile 2017 blasphemy trial of the former governor of Jakarta, Basuki 'Ahok' Tjahaja Purnama, as its sole case study, this book assesses whether Indonesia's liberal democratic human rights legal regime can withstand the rise of growing Islamist majoritarian sentiment. Specifically, this book analyses whether a 2010 decision of Indonesia's Constitutional Court has rendered the liberal democratic human rights guarantees contained in Indonesia's 1945 Constitution ineffective. Key legal documents, including the indictment issued by the North Jakarta Attorney-General and General Prosecutor, the defence's 'Notice of Defence', and the North Jakarta

State Court's convicting judgment, are examined. The book shows how Islamist majoritarians in Indonesia have hijacked human rights discourse by attributing new, inaccurate meanings to key liberal democratic concepts. This has provided them with a human rights law-based justification for the prioritisation of the religious sensibilities and religious orthodoxy of Indonesia's Muslim majority over the fundamental rights of the country's religious minorities. While Ahok's conviction evidences this, the book cautions that matters pertaining to public religion will remain a site of contestation in contemporary Indonesia for the foreseeable future. A groundbreaking study of the Ahok trial, the blasphemy law, and the contentious politics of religious freedom and cultural citizenship in Indonesia, this book will be of interest to academics working in the fields of religion, Islamic studies, religious studies, law and society, law and development, law reform, constitutionalism, politics, history and social change, and Southeast Asian studies.

For those who are familiar with the first edition, it will be convenient to have some indication of where the main changes lie. Chapter one has been largely rewritten to give an outline of current approaches to a model of comprehension of spoken language. Chapter two has a new initial section but otherwise remains as it was.

Download File PDF Henry Guntur Tarigan Berbicara Ebook

Chapter three incorporates a new section on "pause" and how this interacts with rhythm, and rather more on the function of stress. Chapter four has an extended initial section but otherwise remains largely as it was. Chapter five on intonation contains several sections which have been rewritten to varying extents. Chapter six of the first edition has disappeared: in 1977, very little work had been published on "fillers" and it seemed worthwhile incorporating a chapter that sat rather oddly with the phonetic/phonological interests of the rest of the book. Not that there is a great industry of descriptions of the forms and functions of these and similar phenomena there seems no reason to retain this early but admittedly primitive account. The chapter on "paralinguistic vocal features", now chapter six, has some rewriting in the early part but considerable rewriting in the last sections. The final chapter on "teaching listening comprehension" has grown greatly in length. It still incorporates some material from the original chapter but most of it is completely rewritten.
