Table 2 details the number of papers published per decade in the journal, with BJET moving from four issues per year to five issues in 2001, and to six issues per year in 2004. Subsets of data were created based on five decades: 1970–79 (n = 202), 1980–89 (n = 184), 1990–99 (n = 177), 2000–09 (n = 502) and 2010–18 (n = 712). Due to the time of writing this paper, articles published up to and including Issue 3, 2018 are included in the sample.

Liberation, five decades on | Camden New Journal

Fig. 2 sets forth the equal-weighted probability of hostility conditional on a firm being successfully acquired in a given year. The 1960s, 1970s and 1980s were decades characterized by high rates of hostile takeover activity. In 1967, just before the enactment of the Williams Act in 1968, 40% of takeovers in our sample were hostile, a number that fell quickly by 1969 to 8.7%.

Do takeover laws matter? Evidence from five decades of...

Abstract. This paper reviews the empirical evidence of the effect of credibility of the message source on persuasion over a span of 5 decades, primarily to come up with recommendations for practitioners as to when to use a high? or a low?credibility source and secondarily to identify areas for future research.

Project Gutenberg is one of the largest sources for free books on the web, with over 30,000 downloadable free books available in a wide variety of formats. Project Gutenberg is the oldest (and

Expand your journaling with this five-year memory book journal, a tactile version of the bestselling One Line a Day memory book.Jot down ideas or highlights one page for every day and compare your entries to the same date in years past in this notebook. This small handsome book features a rich oatmeal-colored, canvas cloth case, striking metallic page edges, and a ribbon page marker and one line for every day.* An excellent gift for graduates, adventurers, dreamers, and anyone embarking on a new phase of life* Capture your memories and ideas and reflect on past entries* A clean, modern, and sophisticated multi-year journal

The Manitoba Law Journal is a peer-reviewed journal founded in 1961. The MLJ's current mission is to provide lively, independent and high caliber commentary on legal events in Manitoba or events of special interest to our community. This special issue has articles from a variety of contributing authors including: Ainslie Schroeder, Alfred M. Monnin, Arnold Naimark, Bryan P. Schwartz, Darcy L. MacPherson, Jack London, Martin Freedman, Melanie R. Bueckert, Michael E. Rice, Richard J. Scott, and Samuel Freedman.

This tactile new version of our bestselling One Line a Day memory book features a rich oatmeal-colored, canvas cloth case, striking metallic page edges, and a ribbon page marker. Each page features space to jot down an idea or daily highlight on the same date over five years, allowing journalers to look back on years past as they capture the present. A handsome way to record and reflect, this five-year diary makes an excellent gift for graduates, adventurers, dreamers, and anyone embarking on a new phase of life.

"This official book of photographs houses the 50-year collection of the most iconic and beloved photographs taken by prolific fashion photographer Bill Cunningham, the King of Street Style. The iconic Bill Cunningham was known for wearing a blue work jacket and riding a bicycle around New York City as he captured cutting-edge street style (before street style was even a thing). He took pictures for The New York Times from 1978 until his death in 2016 and wrote the beloved columns "On the Street" and "Evening Hours," which began in 1989. This book will be an oversized collection of Bill's hallowed photography--a mixture of published and unpublished--organized by decade with essays by and about Bill's muses and subjects like Anna Wintour, Cathy Horyn, Vanessa Friedman, and Ruth La Ferla. Every fashion lover and fashionista--from NYC and beyond--will have to add this book to their collection"--

A simple journal that offers one question per day, to be answered on the same day for five years in a row. The questions range from the prosaic ("What did you have for lunch today?") to the contemplative ("Can people really change?"), giving readers a comprehensive look back at their thoughts and feelings over a five-year span. For anybody who has ever given up journaling after being intimidated when facing a blank page, this book makes it easy to take a snapshot of your inner life in just a few minutes each day. The beauty of this journal is that it enables readers to track their emotional growth as well as keep track of memories, and provides an interesting walk down memory lane a few years later. The simple one-question prompts make this book to journaling as adult coloring books are to art - a gateway product with built-in creative inspiration. The specially-sized package features a printed flexi-bound cover, four-color endpapers, quality paper, and bookmark ribbon.

This book provides an account of economic development in Palanpur, a village in rural North India, based on five detailed surveys of the village over the period 1957 to 1993. These five decades have seen economic well-being rise in some important respects, but stagnation and even decline in other areas. The analysis presented here focuses on the reasons behind this uneven progress. The authors tie in the background issues of the evolution of poverty and inequality and mobility over time with causal factors such as technological progress, demographic and sectoral changes, the operation of markets, and the role of public action. The richness and unique nature of the qualitative and quantitative data collected and presented by Lanjouw and Stern yields an analysis which illuminates questions of direct importance to researchers in a wide variety of disciplines.

Marketing in the digital age poses major challenges for traditional and established practices of communication. To help readers meet these challenges Principles of Integrated Marketing Communications: An Evidence-based Approach provides a comprehensive foundation to the principles and practices of integrated marketing communications (IMC). It examines a variety of traditional and digital channels used by professionals to create wide-reaching and effective campaigns that are adapted for the aims of their organisations. This edition has been thoroughly revised and each chapter includes: case studies of significant and award-winning campaigns from both Australian and international brands that illustrate the application of explored concepts; discussion and case study questions that enable readers to critically evaluate concepts and campaigns; a managerial application section that illustrates how concepts can be applied effectively in a real situation; a 'further thinking' section that expands knowledge of advanced concepts and challenges readers to think more broadly about IMC.

Relevant to, and drawing from, a range of disciplines, the chapters in this collection show the diversity, and applicability, of research in Bayesian argumentation. Together, they form a challenge to philosophers versed in both the use and criticism of Bayesian models who have largely overlooked their potential in argumentation. Selected from contributions to a multidisciplinary workshop on the topic held in Sweden in 2010, the authors count linguists and social psychologists among their number, in addition to philosophers. They analyze material that includes real-life court cases, experimental research results, and the insights gained from computer models. The volume provides, for the first time, a formal measure of subjective argument strength and argument force, robust enough to allow advocates of opposing sides of an argument to agree on the relative strengths of their supporting reasoning. With papers from leading figures such as Michael Oaksford and Ulrike Hahn, the book comprises recent research conducted at the frontiers of Bayesian argumentation and provides a multitude of examples in which these formal tools can be applied to informal argument. It signals new and impending developments in philosophy, which has seen Bayesian models deployed in formal epistemology and philosophy of science, but has yet to explore the full potential of Bayesian models as a framework in argumentation. In doing so, this revealing anthology looks destined to become a standard teaching text in years to come.?

Persuasion: Theory and Research, Third Edition is a comprehensive overview of social-scientific theory and research on persuasion. Written in a clear and accessible style that assumes no special technical background in research methods, the Third Edition has been thoroughly revised to reflect developments in persuasion studies. New discussions of subjects such as reactance and the use of narratives as vehicles for persuasion, revised treatments of the theories of reasoned action and planned behavior, and two new chapters on social judgment theory and stage models provide your students with the most current work on persuasion in a clear, straightforward manner. In this edition, author Daniel J. O'Keefe has given special attention to the importance of adapting (tailoring) messages to audiences to maximize persuasiveness. Each chapter has a set of review questions to guide students through the chapter's material and quickly master the concepts being introduced.

"This book provides an overview of the major questions that researchers and practitioners in this area are addressing at this time and by outlining the possible future directions for theory development and empirical research on social networking and eDating"--Provided by publisher.
