Developed for the new International A Level specification, these new resources are specifically designed for international students, with a strong focus on progression, recognition and transferable skills, allowing learning in a local context to a global standard. Recognised by universities worldwide and fully comparable to UK reformed GCE A levels. Supports a modular approach, in line with the specification.

Appropriate international content puts learning in a real-world context, to a global standard, making it engaging and relevant for all learners. Reviewed by a language specialist to ensure materials are written in a clear and accessible style. The embedded transferable skills, needed for progression to higher education and employment, are signposted so students understand what skills they are developing and therefore go on to use these skills more effectively in the future. Exam practice provides opportunities to assess understanding and progress, so students can make the best progress they can.

As a five-year-old, George Alagiah emigrated with his family to Ghana - the first African country to attain independence from the British Empire. A PASSAGE TO AFRICA is Alagiah's shattering catalogue of atrocities crafted into a portrait of Africa that is infused with hope, insight and outrage. In vivid and evocative prose and with a fine eye for detail Alagiah's viewpoint is spiked with the freshness of the young George on his arrival in Ghana, the wonder with which he recounts his first impressions of Africa and the affection with which he dresses his stories of his early family life. A sense of possibility lingers, even though the book is full of uncomfortable truths. It is a book neatly balanced on his integrity and sense of obligation in his role as a writer and reporter. The shock of recognition is always there, but it is the personal element that gives A PASSAGE TO AFRICA its originality. Africa becomes not only a group of nations or a vast continent, but an epic of individual pride and suffering.

This textbook provides an accessible and self-contained description of the Galerkin finite element method for the two important models of continuum mechanics, transient heat conduction and elastodynamics, from formulation of the governing equations to implementation in Matlab. The coverage follows an intuitive approach: the salient features of each initial boundary value problem are reviewed, including a thorough description of the boundary conditions; the method of weighted residuals is applied to derive the discrete equations; and clear examples are introduced to illustrate the method.

This unique and innovative Revision Book supports all learning styles so that every student can achieve the best results. Whether you are a visual, auditory or kinaesthetic learner, this revision guide supports the revision techniques that you are most su

This highly accessible book provides comprehensive coverage of the Edexcel A2 Economics specification. Combines clear and concise explanations and analysis of economic terms and concepts with frequent examples that show the application of those concepts to real-world situations. Exercises throughout the book enable students to engage in economic analysis in an active way that assists learning. Comprehensive coverage of the specification content Explains key terms and concepts Includes real-world examples Features regular summaries throughout each chapter for quick revision Provides exercises to engage students in economic analysis The book is supported by a Teacher Guide (9780340948064), including full commentary on the exercises together with additional questions and discussion points.

Easing the transition from GCSE to AS level, this textbook meets the 2004 Edexcel specifications and provides numerous worked examples and solutions to aid understanding of key concepts.

Exam Board: Pearson Edexcel Level: GCSE (9-1) Subject: Science First Teaching: September 2016 First Exams: June 2018 Target Grade 7 workbooks build skills from Grade 6 and extend into Grade 8 to help students to catch up, keep up and make expected progress in GCSE (9-1) Science. This workbook: targets key misconceptions and barriers to help students get back on track addresses areas of underperformance in a systematic way, with a unique approach that builds, develops and extends students' skills gets students ready for the GCSE (9-1) assessments with exercises focused around exam-style questions provides ready-to-use examples and activities addresses an area of difficulty in each unit with a unique approach, to develop and extend students' skills.
