to reveal insights into power, legitimacy and memory politics in the Berlin Republic. Analysing public debates, physical interventions into the buildings and the structuring of the memory landscapes around them, the book demonstrates that the politics of memory impact not just upon the built environment of the post-dictatorship city, but upon the way decisions about it are made. exhibition design and publishing clearly require a more diverse, complex and culturally nuanced account of architectural Postmodernism than that offered by critics at the time. Across the five chapters, Hollein's outputs are viewed not as individual projects, but as symptomatic of Austria's attempts to come to terms with its Nazi past and to establish a post-war identity.
