The Toronto Neighbourhoods bundle presents a collection of titles that provide fascinating insight into the history and development of Canada's largest and most diverse city. Beginning with histories of Canada's longest street and the early days of what was once called York (The Yonge Street Story, 1793-1860; A City in the Making; Opportunity Road), the titles in the bundle go on to examine the development of particular unique neighbourhoods that help give the city its character (Willowdale, Leaside). Finally, Mark Osbaldeston's acclaimed, award-winning Unbuilt Toronto and Unbuilt Toronto 2 go beyond history and into the arena of speculation as the author details ambitious and possibly city-changing plans that never came to fruition. For lovers of Toronto, this collection is a bonanza of insights and facts. Includes A City in the Making Leaside Opportunity Road Unbuilt Toronto Unbuilt Toronto 2 Willowdale The Yonge Street Story, 1793-1860

Milloy challenges the view that creating greater alliance unity has usually been only a Canadian preoccupation - other members, notably the United States and Britain,

displayed a sincere interest as well - and further suggests that Canadian actions sometimes acted as an impediment. He argues that the idea failed partly because the lack of an agreed-upon definition for NATO's non-military potential hampered focused discussion. With NATO facing a post-9/11 relevancy crisis, Milloy shows that there are parallels to the inter-alliance struggles of the 1950s and that many of the early frustrations and obstacles are still present.

These essays look at key social, economic, and political issues of the times and show how they influenced the developing legal system.

Alliance and Illusion is the definitive assessment of the domestic and international aspects of Canadian foreign policy in the modern era. Robert Bothwell provides nuanced studies of Canada's leaders and discusses international currents that drove Canadian external affairs, from American influence over Vietnam and the draft dodgers, to the French case of de Gaulle's eruption into Quebec in 1967. This definitive recounting and assessment of Canadian foreign policy in the modern era fills a crucial gap in Canadian history and provides invaluable context for understanding Canada's present-day foreign policy dilemmas.

What is the future of the monarchy in Canada?

A strong republican movement in Canada stresses that the monarchy is archaic and anti-democratic, an embarrassing vestige of our colonial past. An equally vibrant monarchist movement, however, defends its loyalty to royalty, asserting that the Queen is a living link to a political and constitutional tradition dating back over a thousand years. But is the monarchy worth keeping? Battle Royal answers this question and many more: What does the Queen really do? What are the powers of the governor general? Has the Crown strengthened or weakened Canadian democracy? If we abolish the monarchy, what do we replace it with? And will we have to re-open the constitution? Charles will soon become King of Canada, but a Canada highly ambivalent to his reign. This presents the representatives of the Crown with the opportunity to build a better monarchy in both Britain and Canada, one relevant to the twenty-first century.

Played on frozen ponds in cold northern lands, hockey seemed an especially unlikely game to gain a global following. But from its beginnings in the nineteenth century, the sport has drawn from different cultures and crossed boundaries--between Canada and the United States, across the Atlantic, and among different regions of Europe. It has been a political flashpoint within countries and internationally. And it has given rise to far-reaching cultural changes and firmly held

traditions. *The Fastest Game in the World* is a global history of a global sport, drawing upon research conducted around the world in a variety of languages. From Canadian prairies to Swiss mountain resorts, Soviet housing blocks to American suburbs, Bruce Berglund takes readers on an international tour, seamlessly weaving in hockey's local, national, and international trends. Written in a lively style with wide-ranging breadth and attention to telling detail, *The Fastest Game in the World* will thrill both the lifelong fan and anyone who is curious about how games intertwine with politics, economics, and culture.

In 1957, Lester Pearson won the Nobel Peace Prize for creating the United Nations Emergency Force during the Suez crisis. The award launched Canada's enthusiasm and reputation for peacekeeping. Pearson's *Peacekeepers* explores the reality behind the rhetoric by offering a detailed account of the UNEF's decade-long effort to keep peace along the Egyptian-Israeli border. While the operation was a tremendous achievement, the UNEF also encountered formidable challenges and problems. This nuanced account of Canada's participation in the UNEF challenges perceived notions of Canadian identity and history and will help Canadians to accurately evaluate international peacekeeping efforts today.
