The Stock Trader's Almanac's "2018 Best Investment Book of the Year." In Relationship Investing, experienced Wall Street analyst Jeffrey Weiss shows how treating an investment like a personal relationship simplifies your stock market decisions. In clear and accessible terms, he shows how, by following this simple premise, you can remove complexity and anxiety from buying and selling stocks and achieve improved investment results. You need to follow key rules in the stock market, just as you need to follow particular guidelines in a relationship. The two are surprisingly intertwined. Before you jump into the market, you should consider:
•Communication—you need to be able understand stock market lingo, just as you need to be able to understand your partner
•Risk management—resolve when to sell your stock by knowing when to break it off with your partner
•Timing—determine when to buy a stock the way you decide when to take the next step forward with your significant other
The result is an enjoyable, easy-to-follow road map to financial success.

Follows the princess who, at the age of thirty-one, secretly went to India and returned as a revolutionary to fight for Indian Independence, the welfare of Indian soldiers in World War I, and, above all, women's suffrage.

This book gathers papers presented at the 11th international scientific conference "Transbaltica: Transportation Science and Technology", held on May 2-3, 2019 at Vilnius Gediminas Technical University, Lithuania. It covers cutting-edge issues concerning research and development of modern transport systems. The chapters, written by an international group of experts, discuss novel and smart solutions in the area of vehicle engineering, including environmentally friendly technologies, topics relating to traffic safety, modeling and control, and solutions and challenges in modern logistics. Further topics include multimodal transport and vehicle automation. Providing comprehensive information and ideas concerning innovative transportation technologies and challenges, this book offers a valuable resource for transportation researchers and practitioners, including engineers, managers and decision-makers in the field.

An authority on ancient Mesopotamian culture, Jeremy Black here provides an introduction to the world's oldest poetry. Sumer, in southern Iraq, was the first literate civilization, with writing dating back as far as 3100 B.C. Its extensive poetic literature was lost for nearly two millennia; rediscovery and decipherment of the ancient writings began in the nineteenth century. Black is fully aware of the difficulties of applying modern literary methods to the study of ancient literature, emphasizing theoretical problems that arise from contemporary expectations of a unitary text. Looking closely at the imagery in the Lugalbanda poems, Black perceives in them a rich and sophisticated poetic imagination and technique, which, far from being in any sense "primitive," are so complex as to resist modern literary analysis.

"The Lock and Key Library Classic Mystery and Detective Stories" is a collection of short-stories by various authors, brimming with suspense and intrigue. With minor super-natural elements and mind-boggling situations, the work monopolizes the readers' attention from the outset. Complex plots and intricate characters of these thrillers are exhilarating and riveting.

I believe, a time will come when greater distance makes the conflicts in the Anthroposophical Society - which at first sight seem so ugly - appear as part of the struggle for anthroposophy in the twentieth century. When this future dawns it will be important to be able to reach back to a historical documentation of what happened. - Emanuel Zeylmans Following the re-founding of the Anthroposophical Society at the Christmas Foundation Meeting in 1923, Ita Wegman, Rudolf Steiner's closest collaborator at the end of his life, became the object of intense opposition, systematic exclusion, and misunderstanding. This ostracism and misinformation continued after her death, kept alive by prejudice and untruths that created an atmosphere that made a clear and unbiased view of her role in Anthroposophy impossible. Because no real biography existed, even the open-minded and impartial found it difficult to make an informed judgment. This lack was filled by Emanuel Zeylmans' three-volume work, Who Was Ita Wegman? To write it, he researched 100 undated notebooks, 2,000 manuscript pages, and 6,000 letters. Sifting through these was an enormous labor. To reach the esoteric heart of "the Wegman question" took him twelve years. What he found was extraordinary and of paramount importance to anyone interested in Anthroposophy and the divisive karma of its history. In Ita Wegman and Anthroposophy, Wolfgang Weirauch of the German journal Flensburger Heft interviews Emanuel Zeylmans. Speaking candidly about the deepest aspects of his revelatory findings, Zeylmans describes how his passionate need unfolded to understand what happened both to Ita Wegman and Anthroposophy. He talks of meetings with those who knew her intimately. He tells of her collaboration with Rudolf Steiner and her fraught relations with Marie Steiner and Edith Maryon, both of whom also had special relationships with Steiner. He describes the Christmas Foundation Meeting and the conflicts that followed Steiner's death that led to Ita Wegman's expulsion from the Executive Council. Though this book will be of special interest to those who want to understand the history of the Anthroposophical Society, it would be a mistake to consider it a book about the past. It is a book about the future of Anthroposophy.
