RCBS Cast Bullet Manual The RCBS Cast Bullet Manual, hardbound. (\$6-10 off E-Bay) This manual is a great book and covers many of the powder that the Lyman books do not. It uses only RCBS bullet designs but makes for a good reference if you're looking for a load for a bullet of a similar weight that is not covered by Lyman.

Description. Size and lubricate cast bullets in one step with the Lube-A-Matic!2. Just insert a bullet into the sizer die and pull the handle. A sized and lubricated bullet ejects on the upstroke. A fingertip regulator lets reloaders fine-tune lubricant flow. The Lube-A-Matic!2 also seats gas checks. Note: Die and top punch sold separately.

Up for auction is a RCBS Cast Bullet Manual Number 1. This book is in great condition. There are no tears, rips, missing pages or writing on any of the pages. The pages of the book are starting to yellow slightly due to their age. This book would make an excellent addition to any collection. This is an estate sale find and is being sold as is.

4 Books on DVD(Art of Bullet Casting;Handloaders' Bullet Making Annual Vol 1&2;Handloaders' Cast Bullet Special Edition)How'to's for casting bullets. A collection of articles taken from years of "Handloader" and "Rifle" magazines covering the basics to more advanced techniques. Get technical and accurate with your casting and swaging.

This publication is an informative guide book on reloading to include equipment and accessories used as tools of the trade. It also includes my extensive experiences as a reloader of approximately three hundred thousand rounds during the past thirty-five years. The book covers fourteen chapters with a major emphasis on Dillon reloading equipment and its many accessories. It does include discussions on other products from major manufacturers. Other chapters mention such subjects as reloading dies, primers, new pistol powders, reloading the 9mm, plated/coated/moly bullets, special topics, FAQs, and the Ruger American Pistol reviews with my experience loading for this firearm. This book is not an A to Z manual on how to begin reloading. It is a highly referenced publication that is written for all working reloaders who want to learn more usable info and wish to develop a lifelong hobbypractical volume reloading.

Finding the right cast bullet to perform in your black powder cartridge rifle can be a pursuit of disappointment or reward. Matthews puts into perspective the tools and techniques used to make your cast bullet shooting a success.

Indispensable information has been funnelled into a huge new edition, completely rewritten and refreshed by Sam Fadala. This textbook for black powder shooters is topped off by a catalog of all currently-manufactured work powder firearms. The ultimate source for black powder.

Learn the facts that help reduce wind drift to become a better shooter of cast bullets at black powder velocities.

Provides step-by-step instructions and manufacturer specifications for all aspects of firearms maintenance while sharing accompanying tips for a wide range of firearms categories.

DONT LET THE TITLE of this book fool you, fellows. This is indeed the handbook for commercial bullet casters, but the make-'em-for -money people are not the only ones who need to keep it handy and consult it often. Any basement or garage bullet caster could tear out and throw away its chapters on the excellent machinery that the Magma Engineering Company makes, plus its chapters on doing business on a commercial producer of cast bullets, and he would still have a manual on bullet casting that's worth more than it costs.

All the physical data, how-to details, drawings, and tools needed to convert over 900 obsolete cartridge cases into shootable centerfire ammo.
