The Discoverers is a non-fiction historical work by Daniel Boorstin, published in 1983, and is the first in the Knowledge Trilogy, which also includes The Creators and The Seekers. The book, subtitled A History of Man's Search to Know His World and Himself, is a history of human discovery. Discovery in many forms is described: exploration, science, medicine, mathematics, and more-theoretical ones, such as time, evolution, plate tectonics, and relativity. Boorstin praises the inventive, human min
